Islamabad, Pakistan | +44 7351 902250 | manahil11shahid@gmail.com | linkedin.com/in/manahil-shahid-37bb41322

PERSONAL PROFILE

Visual designer and Senior Operations Associate with a BSc (Hons) in Software Engineering (Gold Medal), producing digital assets for the POS systems and self-service kiosks of 35 restaurant clients at AIO. Designs kiosk screensavers, menu boards, logos and marketing video in Canva, Adobe Photoshop and Figma, and worked with the design and AI teams on an image-generation tool that cut image production from a full working day to 2 hours.

KEY SKILLS

Visual Design: Graphic Design, Brand Identity & Logo Design, Digital Signage, Menu Board Design, Photo Retouching & Image Compositing, Food-Image Editing, AI-Assisted Image Generation, Short-Form Video & Motion Graphics

UI/UX: Wireframing, User Flows, Interface Design, Responsive Design, Accessibility, User-Centred Design

Tools: Canva, Adobe Photoshop, Figma, Higgsfield AI, Miro, Draw.io, Lucidchart, HTML, CSS, SQL

CAREER HISTORY

AIO (Restaurant Management Technology) **Islamabad, Pakistan**

Senior Operations Associate *August 2026 – Present*

- Lead the menu team's night shift: trained 3 new night-shift staff using documented workflows, and improved night-shift processes and guidelines through documentation.
- Act as the main contact and escalation owner for 5 demo and 3 live restaurants a week, personally looking after key accounts.
- Produce 3–5 kiosk screensavers, 2–4 menu boards and 2–3 marketing videos a week, plus logos and banners, for demo and live restaurants, using Canva, Higgsfield AI and other editing tools to achieve realistic results.
- Worked with the AI team over three months to build the image-generation tool our design team came up with, cutting image production from a full working day to 2 hours with more realistic results.

Operations Associate *August 2025 – August 2026*

- Delivered screen-ready visual assets for 35 restaurant clients, including kiosk screensavers, logos and menu food imagery, now in live use on-site at those restaurants.
- Designed kiosk screensavers and digital signage graphics in Canva, adapting each layout to the restaurant's brand identity and screen requirements.
- Edited and retouched food images for POS and kiosk menus, including cleanup, cropping, resizing, background adjustment and consistency across the menu.
- Created logos and supporting brand assets for restaurant concepts and digital touchpoints.
- Edited short-form and animated video content in Canva for screensavers, digital displays and promotional use.
- Handled detailed retouching and compositing in Adobe Photoshop.
- Redesigned the menu-image production workflow in Miro and, together with the design team, came up with the idea for an image-generation tool to speed up menu images.
- Worked with internal teams to translate restaurant requirements into deployment-ready visual assets, keeping every asset accurate and on-brand.

Operations Intern *May 2024 – September 2024*

- Provided daily operational support for U.S.-based restaurant brands across POS, kiosk, online ordering, menu, payment, payroll, inventory and marketing.
- Edited menu-item images and designed menu boards as part of the team's image-editing work.

ADDITIONAL EXPERIENCE

Benchmark School *October 2020 – December 2020*

O-Level English Teaching Assistant

- Supported O-Level English lessons in reading comprehension, grammar and writing through one-to-one and small-group help.
- Assisted with classroom management, assignment marking and constructive feedback to support exam preparation.

Roots Ivy International — IYLO *May 2020*

Co-Head, Décor Team | Media Team Member

- Co-led décor planning and visual execution for a major five-day event; supported the media team with visual coordination.

Benchmark School *February 2020 – May 2020*

Preschool Co-Teacher

- Supported early-childhood learning through play-based and hands-on classroom activities.
- Helped develop children's early literacy, numeracy and social skills in a safe, organised classroom.

VisionX — Mural Project *March 2019 – May 2019*

- Designed and painted a mural for the office environment, applying composition, colour and large-format visual design skills.

PROJECTS

Sign Language Recognition System — Final Year Project

- Built a computer-vision-based sign language recognition system with an accessibility-focused interface.

Shoe Customisation Website — UI/UX & Web Project

- Designed and built an interactive shoe customisation website focused on clear user journeys, usability and visual hierarchy.

Sports Management System — Responsive Web Project

- Built a responsive web application applying UI/UX and accessibility principles to improve usability across devices.

EDUCATION

BIC University (affiliated with Liverpool John Moores University) **Islamabad, Pakistan**

BSc (Hons) Software Engineering *November 2022 – May 2025*

- Gold Medal graduate.
- Relevant areas: UI/UX, web development, human-computer interaction, accessibility and software systems.

LEADERSHIP & VOLUNTEERING

- Founder & Head, Aramesh (charity initiative), February 2017 – January 2018: raised PKR 800,000 to provide food, clothing and other essentials for 150+ people.
